Killed-Edhem Pasha Says He's the Referee.

London, May 23.-The Athens correspondent of the Times says: Owing to the disquietude caused by the presence in the city of large bodies of volunteers the government has hastily recalled the force of gens d'armes sent to Arta, and will take measures to deport these dangerous allies to their various countries at the earliest date. Most of the volunteers making up the Berthel column are anarchists and the government has dealt wisely in refusing to allow them to come here, although they insisted on the privilege. The government sent them from Arta to Zavardaux and sent them from Arta to Zavardaux and there disarmed them with orders to leave for Italy in Greek vessels. Thereupon they began to indulge in all sorts of excesses and in conflicts with the inhabitants, with the result that one Italian was killed and six seriously wounded. Finally, after a great deal of trouble, they were sent to Brindisi under the escort of two Greek men-of-war.

### EDHEM INSISTS ON IT. He Repeats That Peace Must Be Negotiated With Him.

Athens, May 23.—It is again semi-officially asserted that Edhem Pasha, Turkish commander-in-chief, has repeated his statement that peace must be negotiated with him and is now pressing for the appointment of a Greek plenipotentiary to conduct the settlement of terms. M. Deligores, a former foreign minister, has been elected president of the Cretan central committee.

to the Athenian newspapers denying that he ordered a retreat except in pur-suance of the commands of Crown Prince Constantine, and adding: 'I Prince Constantine, and adding: 'I earnestly beg you not to publish inaccurate statements calculated to create dissensions in the army." He also denies that any guns went into the hands of the enemy during the retreat from Reveni and Velestino. The Berthel column (Italian) insisted on coming here, several of the volunteers refusing to return to Italy on the ground that they are liable to arrest as deserters. The are liable to arrest as deserters. The government has decided that the column must return to Italian territory, and will undertake to board and lodge only those liable to arrest.

Excesses of Italians.

London, May 23.—The correspondent of the Daily Telegraph in Epirus gives a terrible picture of the excesses of the Italians while traveling from Arta to Zaverda. He says they stole brandy and drank it like water. Armed only with revolvers and bayonets, by the time they reached Zaverda they were quarreling fiercely. The villagers, thoroughly alarmed, got in readiness to fight, and the situation became serious. A Greek tried to tion became serious. A Greek tried to pacify a Garibaldian who was about to dash his brains out with a stone, where-upon an Italian fired and wounded the Garibaldian, Instantly the cry was raised, "A Greek has been killed!" and the vil-lagers began to fire their rifles. The firing became general, but the Italians displayed a flag of truce and the embarkation was effected, though with great difficulty. Sevieral officers told me they did not expect to reach land alive, as their ruffianly sol-diers would surely kill them.

### Peace Negotiations.

London, May 23.—The correspondent of the Standard at Constantinople says: Peace negotiations continue. It is asserted that the amount of indemnity will be re-duced to 8,000,000 lire, 2,000,000 to be paid in cash to Turkey and 6,000,000 to be accepted by Russia as part payment of the indem nity owed her by Turkey.

The building was occupied for both business and dwelling purposes. In the basement is an all-night eating house. A piano company occupied the first floor and the upper part of the building is a furnished room apartment house, furnished by Mrs. Curtis.

Before the firemen reached the scene the building was filled with flames. The hallways from the first floor to the roof were in flames and escape by the front was cut off. Panic seized the inmates of the house. While a tenant named Lamont was crawling along a narrow sill to reach an adjoining house the body of a woman struck a large sign which hung on the outside of the building and to which he clung for support.
